

**6/18**

Draw 18 slashed lines

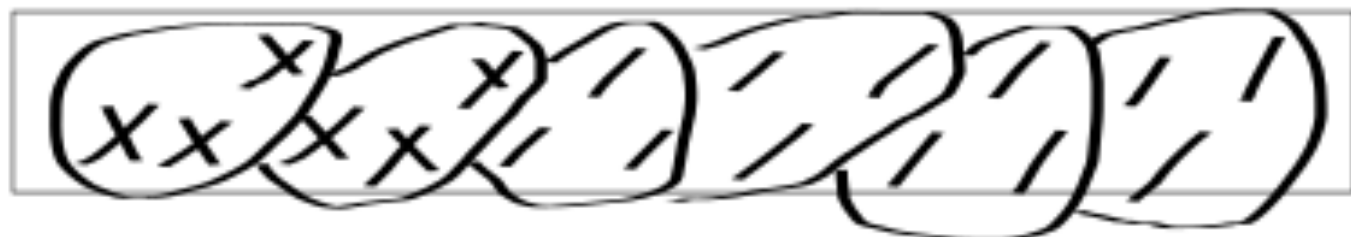

Make an X with 6 of the 18 lines = 6/18

There are fewer Xs than slashes, so group the Xs.

We grouped the Xs in threes. Group slashes in threes!

2 of 6 groups are X groups = **2/6**

We have more than one X group, try to group more!

1 of 3 groups is an X group = **1/3**
